This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspids (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.

1. Basic communication complied with.
2. Investigation conducted by this headquarters with the view of determining the identity of Unknown X-455 revealed the following:
 - a. That 1st Lt. Daniel J. Murphy, O1 013 959, Headquarters Combat Command "A", 7th Armored Division, was reported as "KIA", in Belgium, as of 21 December 1944, on Battle Casualty Report No. 3, Headquarters Headquarters Company, Combat Command "A", 7th Armored Division, dated 26 December 1944.
 - b. That due to the tactical situation, the body of 1st Lt Murphy, together with the bodies of Sgt Wilbur F. Woolbright and Tec 5 Jack J. Fisk, was left in a house near Poteau, Belgium, (Map Coordinates P 795900), when that organization was forced to evacuate the area.
 - c. That the censor stamp for Headquarters and Headquarters Company, Combat Command "A", 7th Armored Division, was No. 37803, and the stamp was charged out to Lt. Murphy. To date, stamp has not been recovered.
 - d. That the physical characteristics of Lt. Murphy are described as follows:
 - Height - 5 ft 9 in.
 - Weight - 145 Pounds
 - Hair - Dark
 - Race - White
3. It is the opinion of this headquarters that Unknown X-455 and 1st Lt. Daniel J. Murphy, O1 013 959, are one and the same person. The distance between the place where the body of Lt. Murphy was last seen and the common grave in which discovered is undoubtedly due to the fact that burial was made by either the enemy or Belgian civilians.
4. Request that grave of Unknown X-455 be appropriately marked and this headquarters be furnished a copy of corrected Report of Burial.

Dear Mrs. Murphy:

Inclosed herewith is a picture of the United States Military Cemetery Henri-Chapelle, Belgium, in which your husband, the late First Lieutenant Daniel J. Murphy, is buried.

It is my sincere hope that you may gain some solace from this view of the surroundings in which your loved one rests. As you can see, this is a place of simple dignity, neat and well cared for. Here, assured of continuous care, now rest the remains of a few of those heroic dead who fell together in the service of our country.

This cemetery will be maintained as a temporary resting place until, in accordance with the wishes of the next of kin, all remains are either placed in permanent American cemeteries overseas or returned to the Homeland for final burial.

Sincerely yours,

This dental chart is very important and should be filled in with great care. There are 32 teeth to be accounted for, as shown by the numbers on the chart. Beginning at the middle line in both upper and lower jaws, the teeth are arranged symmetrically on either side and classed as incisors (cutting teeth), cuspids or canines (tearing teeth), bicuspid (chewing teeth), and molars (principal chewing teeth). An examination should be made and findings charted to cover the following basic conditions: Lost teeth, crowned teeth, bridge work, fillings, caries (cavities of decay), dentures (plates), and any deformity of jaws found. See reverse side for illustrations.
